Monitoring and Auditing of the CNMI Government Computer System

At any time, the government may monitor and/or audit user activity and/or network traffic. In addition, the government may access your system and disclose information obtained through audits to third parties, including law enforcement authorities. Acceptance of the warning banner prior to logging onto the computer system network is your acknowledgement of the CNMI Computer System monitoring/auditing.

Violations

Violations of information system security guidelines and procedures may lead to disciplinary action up to and including termination of employment.

Manager/Supervisor Responsibilities

All persons in a management role must be aware of and acknowledgeable in information system security practices. Managers are responsible for enforcing these practices within their areas and will be held accountable for ensuring that users are aware of and acknowledge their responsibilities. Management is also responsible for ensuring that all users i.e. Employees, Contract Personnel and Official Visitors attend mandatory computer security training.

Users Responsibilities

User's access to information system resources indicates a level of trust between the User, Management and the Division of Electronic Data Processing. Therefore, Users are held accountable for the following:

- Ensure the ethical use of the Government information resources in accordance with guidelines and procedures.
- Utilize all security measures that are in place to protect the confidentiality, integrity and availability of information and systems.
- Refrain from using information resources for inappropriate activities.
- Adhere to all licenses, copyright laws, contracts, and other restricted or proprietary information.
- Always safeguard User IDs, passwords, smartcards and other means of system security.
- Protect information resources when working remotely by ensuring the latest patches and antivirus software are loaded on your Government Owner Equipment (GOE).
- Limited personal use of the internet is allowed only when you are authorized and it does not interfere with official business nor reflect adversely on the information systems.
- Access only those information systems, network, data, control information, and software that you are authorized to use.
- Know who your Information System Security Officers (ISSOs) are and how to contact them.
- Determine the sensitivity of the information and programs on your computer resources (*e.g. sensitive, confidential, etc.*)
- Avoid the introduction of harmful files/data that may contain spy-ware, viruses, etc. into any computer resource.

If you have any questions on the CNMI Government Computer Systems Security, please contact the Division of Electronic Data Processing at 670.664.1407/1420, your local Information System Security Officer (ISSO) or your systems administrator.
